

Biography

- **Name:** Yoshifumi Nogi
- **Position:** Professor, National Institute of Polar Research (NIPR); Director-General (since 2023)
- **Field:** Marine geophysics, Antarctic research, tectonics, geomagnetism

Education

- PhD (Science), Kobe University (1992)
- MSc, Kobe University (1987)
- BSc, Kobe University (1985)

Career

- Professor, NIPR (since 2012)
- Vice-Director General, NIPR (2015–2023)
- Director, Center for Antarctic Programs, NIPR (2015-2023)
- Research Scientist, Meteorological Research Institute (1989–1994)

Research & Activities

- Specializes in geomagnetic anomalies and seafloor structures
- Extensive experience in Antarctic expeditions and marine surveys
- Leader of multiple research cruises (R/V Hakuho Maru)
- Contributor to international programs (IODP, SCAR)

Publications & Service

- Author of numerous papers in geophysics and Antarctic science
- Editorial Board Member, *Polar Geoscience*
- Member of AGU, JpGU, and other scientific societies
